## **Mountain Rescue Team – Countryside Safety**

Over the past few weeks, our Police Scotland Mountain Rescue Officers and their wonderful volunteer colleagues from Tayside Mountain Rescue Team have been called out on numerous occasions to help those in need across Perthshire and Angus. In that short period, 5 of those incidents have involved technical rope rescues at rivers and gorges where people have slipped from paths and become injured after falling considerable distances.

Following another rescue at The Hermitage in Perthshire, where MRT were assisted by Scottish Fire and Rescue Service Scottish Ambulance Service Scotland's Charity Air Ambulance - SCAA, Tayside's Police MRT Leader Constable Morgan said:

"We are blessed to have so many wonderful beauty spots around both Perthshire and Angus where people can come to enjoy the trails near the likes of the River Isla, River Erich and River Braan, to name but a few. With many river walks being easily accessible and on well-trodden paths, the last thing anyone expects is to have a simple slip and then end up falling down an embankment or over a cliff-edge, but these things can and do happen.

Following our recent flurry of technical rescues in such places, and in advance of the summer months, this is a great opportunity to highlight the risks around our river walks. So, whilst out enjoying the trails, just be mindful of your environment, keep an eye out for any slip/trip hazards near embankments or cliffs and take care on narrow paths near water.

Finally, everyone at Police MRT (Tayside) and Tayside MRT would like to wish all of the people we have helped recently our very best wishes for a speedy recovery."
